Covid-19 Vaccine Delivery

by aeca | Jan 18, 2021 | Announcements | 0 comments

Source: World Health Organization

As you may have heard, early childhood educators are now in the 1-B category in Arkansas to get the Covid-19 vaccine starting today.

To help you navigate this, here is the current list of approved pharmacies:

<https://www.healthy.arkansas.gov/programs-services/topics/covid-19-map-of-1-a-pharmacy-locations>

Please note that some places have an online signup option and some you have to call for appointments. There won't be enough vaccine available for everyone at first, but the pharmacies are set to get additional supplies each week and will work to make it available as quickly as possible.

If you go to a pharmacy and they are fully booked, we suggest calling another pharmacy in your region and seeing if you can get onto their waiting list. The waiting lists may already

be long, but if you can get on one that may be your best next step.

We encourage you to share local information with other providers that you know and we will continue to seek out more information and share it with you as and when we get it.

As always, please consult your own doctor first if you have any questions.
