

Head Start Family and Child Experiences Survey
Spring 2002/2003 -- Kindergarten Followup -- Parent Interview
(For parents of children in K, plus parents of non-K, non-HS children)

INTRODUCTION

(Hello), my name is _____ and I am calling from Westat. We are part of the research team that is conducting a study of the Head Start Program. (You may remember that) someone from the research team talked to (you/SPRING 2002 RESPONDENT) in spring 2002 (while [CHILD] was attending Head Start).

As part of this same study, the Family and Child Experiences Survey, we would like to again interview you, administer a child assessment to [CHILD] and ask [CHILD]'s current teacher some questions. The study will help us learn more about what happens to children and families who participate in Head Start. We want to get your point of view on how [CHILD] is doing in school and what is now happening in your family. This information will be used to help Head Start better serve children and families. To thank you and [CHILD] for your participation, you will receive \$25.00 and [CHILD] will receive a small gift.

I will ask you questions and write down your answers. You may stop me at any time, and you may go back to earlier questions to change your answers. No one from the Head Start program or [CHILD]'s current school will see or hear your answers. Your participation is completely voluntary. If you choose not to complete the interview, it will not affect you or your child's participation in Head Start programs. The things you tell me are very important, so please be as accurate as possible. You may recognize some questions from the last interview, but it is important to ask them again. The interview should take approximately 45 minutes.

Before we begin, let me read the following to you:

NOTICE: According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB Control Number. The valid OMB Control Number for this information collection is 0970-0151 (expires 7/2003). The time required to complete this information collection is estimated to average 45 minutes per response, including time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection.

Do you have any questions before we begin?
